PROFILE

JS-developer with 4+ years of experience building web applications and Telegram bots. Confident in both frontend and backend, focused on scalable solutions and architectural reliability. Keen on user convenience, automation, and team collaboration.

WORK EXPERIENCE

● **DMZ Home Construct | 2025 | Full-Stack Developer (Confidential Client)**

Stack: NextJs · TypeScript · Payload CMS · Tailwind CSS

Architected and developed a headless CMS from scratch using Payload v3. Implemented custom collections, fields, and access controls, and integrated the CMS with a large-scale Next.js application to enable full-cycle dynamic content management.

● **CPABOX** (SaaS platform for media buying automation) | **2022–2025 | Full-Stack Developer**

Stack: React · NestJs · TypeScript · Grammy · Zustand · MUI

Built and maintained frontend architecture and backend logic. Integrated Keitaro TDS, developed Telegram bots for domain checks, built Telegram Web Apps and webhook architecture. Contributed to technical solutions and architecture.

● **Remotza.tech | 2021–2022 | Backend/Full-Stack Developer**

Stack: Laravel · VueJs · PostgreSQL · Redis

Developed RESTful APIs, integrated external services, worked with PostgreSQL and Redis caching, contributed to UI with Vue.js.

● **AOPSRM | 2020–2021 | Full-Stack Developer**

Stack: React · Laravel · Docker · GitLab · CI/CD

Designed and launched a full-featured CRM: React frontend with Redux and Formik, Laravel REST API backend. Managed deployment with Docker and GitLab CI/CD; handled server admin and support.

EDUCATIONS

Russian University of Cooperation
Accounting and Finance | 2003–2007
